

## Electrical Surface Bolt Lock

### HM-K29

The world 1<sup>st</sup> innovative and the best electric bolt lock, is created HM Enterprises

Innovative design easy to install and to minimize the installation danger and difficulties

The voltage of the new device is only. 12VDC 160~180mA (operating) it is better than the other bolt lock

The new design only use one 1Amp power supply adapter with other bolt lock , card reader & sensors altogether

This products has already had patients applied for in nine countries ; China, Japan, Korea, UK, France, Germany, Italy, USA & Taiwan

### HM-K29 SURFACE BOLT LOCK

Electronic Specification	
Mortise bolt lock & Surface bolt lock	Power to lock
Power source	12VDC±10%
Current consumption	180mA(MAX)
Lock delay setting	2.5 ~ 5 seconds setting available
Unlock Dry Contact	Grey:COM Purple:NC White:NO
Lock Dry Contact	Grey:COM Purple:NO White:NC
Position Installation	on top of the door / side of the door
Door Detection	Green & Blue : NC(Dry Contact) Contact Capacity : DC12V/30mA
Operating Temperature	-10° C ~ 50° C
Weight	330g (Mortise bolt lock) 512g (Surface bolt lock)
