

Cellular Jammer Cover 40 Meters Radius SH-066BMW-B-I

This cell phone jammer utilizes unique and intelligent technique that interferes the linkage between cellular handset and cellular base station by very low output power radio signals.

Ensure a cellular phone communication free environment for desired period of time and control compound or to avoid information being disclosed secretly during meetings. And yet, it is jamming silently without cellular phone users' awareness.

Easily operated and user-friendly, no hassle installation needed, need no professional knowledge or skill, a DIY designed device to suit everyone, everywhere and anytime.

Specifications:

- For all types of cellular system including analog (AMPS, TACS, NMT) and digital (GSM, DCS, CDMA, PDC, TDMA, PHS, PCS, iDEN)
- Network: GSM 900, NMT 900- Frequency band: 890~960 MHz
- Network: GSM 1800, NMT 1800- Frequency band: 1710~1880MHz
- VCDMA 2100 (3G, UMTS) Frequency band: 2110~2170MHz
- Jamming distance: Up to40 meters radius, depending on the strength and type of cellular system. Effective Range: About 20~30 meters radius, depending on the type and location of cellular system.
- Input Power: 6VDC, 3A (using switching power adaptor)
- Signal Source: PLL synthesized
- Antenna: Internal
- Size: (L) 245 x (W) 85 x (T) 98 (mm)
- Weight: about 650g

Features:

- Prevent medical instruments should not disturbance by cellular signal.
- Avoid information being disclosed secretly during meeting.
- Restaurants, theatres, cinemas, museums, art galleries, libraries and schools that should free from cellular phone communication.
